Declaration of Conformity to EU REACH-247 Substances

January 25, 2025

All products manufactured and/or supplied by RAF Electronic Hardware are in compliance with the Regulation **(EC) No 1907/2006** concerning REACH.

Our products are considered as Articles under the legislation and do not contain substances in a concentration greater than **0.1% by weight**, as listed in **Article 57** and **Annex XIV** of the directive.

Under our reading of the reading or the regulation and the additional communications from the European Agency (ECHA), we believe that the products we sell do not need to be registered in their existing form. We are a manufacturer of "Articles". We do not manufacture "substances" or "preparations" and our articles do not involve the "intentional release of substances".¹

In communication with our vendors, we have been advised that the products they supply to us do not contain any significant amounts of 247 chemical compounds referenced on the List of Substances of Very High Concern (SVHC) through the latest release on 01/21/2025. The list of current candidate SVHC's can be found at (<https://echa.europa.eu/-/echa-adds-five-hazardous-chemicals-to-the-candidate-list-and-updates-one-entry>)

Thus, as of the date of this statement, we believe the products supplied to you by RAF Electronic Hardware are in full compliance with this regulation. We will continue to monitor and update REACH requirements in conjunction with our vendors.

Authorized Signature:

Name: Daniel Core

Title: Quality Manager/MR
