

Drug Delivery Components

Springs

Inhalers
Auto-injectors
Nasal sprays
Transdermal systems
Cataract surgery tools
Needle-free injection devices

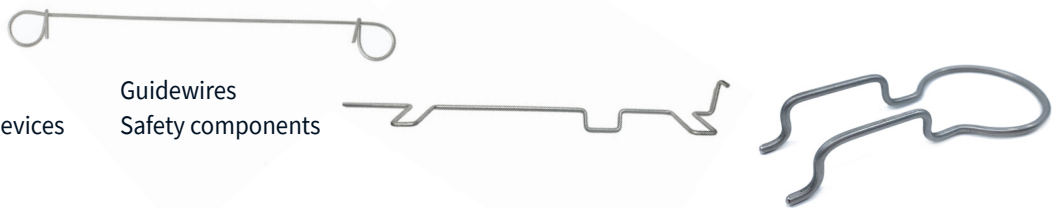

Retractable needles
Pre-filled syringes
Wearable glucose monitors
Wearable insulin drug delivery devices
Neurological & peripheral infusion devices

Wire Forms

Battery & Timing Contacts
Electrical connectors in wearable devices

Guidewires
Safety components

Pins & Push Rods

Needle injection devices
Glucose monitors

Safety components

Bellows & Electroforms

Implantable drug pumps
Battery & timing contacts

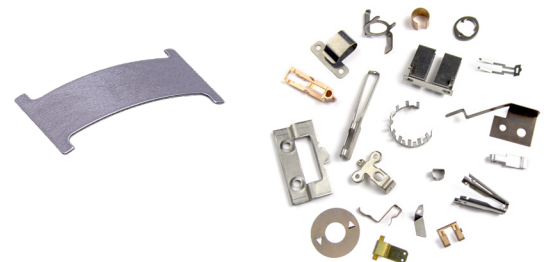

Catheter tips
Electrical connectors in wearable devices

Tubes & Stampings

Cold-formed support tubes
Hypodermic support tubes
Threaded bushings

Battery & timing contacts
Cannula

Micro Components

Cold formed ferrule tube
IoMT device components
Pharmaceutical insert screw

Needle hubs
Canula hubs

Custom Medical Part Manufacturing

At MW, we specialize in custom medical manufacturing. All our parts are made to your specs and go through rigorous quality controls to ensure they meet performance and safety standards.

Services

Rapid Prototyping
Precision Machining
Cold Forming

Laser Machining
Engineering & Design Consulting
Micro Cold Heading

Materials

Beryllium Copper
Hastelloy®
Phosphorous Bronze
Titanium

Cobalt Chrome
Inconel®
Stainless Steel

50+ Years
Medical Manufacturing Experience

Unlimited
Custom Capabilities

55 Million
Parts In Stock Now

Dedicated Support
Expert Reps at Every Location

Same-Day Shipping
On In-Stock Medical Components

Rapid Turnaround
And Delivery on Custom Orders

20+
Locations in the United States

100+
Engineers On Staff
