

Springs for Furniture

Impact Performance in Everyday Activities

Custom springs and wire forms play an essential role in a wide variety of furniture for lecture halls, cafeterias, offices and outdoor products. Customizing springs for each application allows us to improve functionality and flexibility leading to reliable performance.

At MW Components – Fox Valley Spring we pride ourselves on our customer service, quality, expert craftsmanship and our willingness to expand into new manufacturing technologies. Our personal touch and 10-piece minimum order demonstrates that every customer is important to us. Design and production offerings are state-of-the-art, and we'll work with you to optimize your product and design so it fits your needs. Our varied production capabilities allow us to offer many specialty spring products, and our Quality Management Systems are ISO 9001 Certified.

Maximize Comfort and Durability in Furniture Applications
