

Western Wire

Custom Wire Forming - CNC, Multi-Slide & Stamping

The Western Wire Products CNC, Multi-Slide and Stamping Teams are comprised of skilled specialists in the Wire Forming Industry. We have over 120 machines in full operation that can produce a wide variety of products. We can produce virtually any quantity of superior products from a few prototypes to millions of pieces. You provide the sample, print or sketch and we will deliver the finished product to your specifications. Our in-house tooling design and manufacturing teams work with our customers on their designs. This allows us to easily make tooling adjustments as necessary throughout the entire process.

- **Materials:** Various grades of carbon steel, galvanized material, brass, stainless steel, aluminum, spring steels and other types of alloys.
- **Wire diameters** from .012" to .010" or .3mm to 16mm
- **Blank lengths** of 72" and beyond
- **Strip forming** up to 16 gauge or .062" thick

In addition to wire forming, we offer a vast array of secondary processes including Staking, Stamping, Chamfering, Undercutting, Notching, Assembly, Drilling, Threading, Welding, Milling, etc. We also offer Special Packaging and Stocking Programs.

Standard Stock Items - Wire Fasteners

Cotter Pins ASME, MS24665 & MS9245 Certified

- Extended Prong, Chisel Point
- Wedge-Fast
- Hammerlock

Hitch Pin Clips

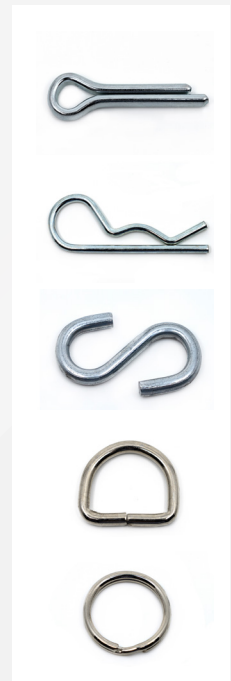

- Internal
- External
- Double Loop

Cotter Pins Upon Request

- T-Head
- Humped
- Self-Locking
- Even End
- High Carbon HT
- Clinch Pins

Spring/Roll Pins ASME & MS Certified

- **S Hooks**
- **D Rings**
- **Key Rings**
- **Lock Washers**
- **Tie Wires**
- **Ring Cotters**
- **Key Snaps**
- **Double C Hooks**
- **Tag Fasteners**
- **V Hooks**
- **Hog Rings**
- **Safety Pins**
- **Key Rings**
- **Lock Pins**
- **S Irons**
