

Western Wire: Cotter Pins & More

Our experienced team of experts works with you to create, refine, and optimize designs. Western Wire has been a leading manufacturer of custom wire forms and wire fasteners and a proud USA manufacturer since 1914. While cotter pins were Western Wire’s first claim to fame, we have grown into much, much more.

Beyond our standard product line, we can produce your special, customized wire shapes and forms. We have an extensive line of equipment to manufacture specialized wire fasteners and wire forms in all shapes, sizes, and quantities.

Backed by solid technical expertise and extensive experience, we pride ourselves on overseeing your project from design to delivery with the utmost professionalism. Each department involved in your project commits to 100% client satisfaction.
